## Morningstar PitchBook Developed Markets Listed Private Equity Methodology Enhancement

Morningstar Indexes is making a methodology change to the Morningstar PitchBook Developed Markets Listed Private Equity Index, based on the results of a client [consultation](#). At each quarterly rebalance, a 9.5% cap will be applied to the aggregate weighting of securities designated as closed-end funds. This enhancement is designed to improve replicability in the U.S., where the SEC generally prohibits funds from investing more than 10% of their assets in other funds without exemptive relief.

This change will be effective from the December 2023 reconstitution after market close on Friday, December 15, 2023. The updated index rulebook will be posted to the Morningstar Indexes website ahead of the change.

This will **not** impact the following indexes:

- Morningstar PitchBook Developed Markets Listed Private Equity Focus Decrement 50 Point
- Morningstar PitchBook Developed Markets Listed Private Equity Focus
- Morningstar PitchBook Listed Private Equity Focus Static 15 2022
- Morningstar PitchBook Developed Markets Listed Private Equity Select
