

CRSP US Treasury Database Release Notes

May 2026 Monthly Update

General Notes:

Important Notice

The Bureau of Labor Statistics did not publish an October 2025 CPI number due to the US Government shutdown. On November 26, 2025 the US Treasury released an October 2025 contingency CPI index number of 325.604 to be used for TIPS calculations (see <https://home.treasury.gov/news/press-releases/sb0324>). The contingency October 2025 CPI value will be used in the CPI index unless a revised October 2025 number is released.

Delivery Method, Installs, and Data Formats

Delivery

CRSP data delivery for all products is available through MOVEit Cloud at crsp.moveitcloud.com.

ZIP Installs

CRSP uses a zip process for data installation. ZIP utilities that are standard on all platforms should work to unzip the databases.

ZIP File Structure and Process

There are four separate zip files; each will have to be extracted separately. At the time the files are unzipped, make sure to set the directory path to the intended home directory (for example, in Windows C:\, in Red Hat /home). The unzip process will extract to that directory under the subdirectory \crspdata.
